

## Helpful Math Resources

- Virtual Nerd - [www.virtualnerd.com](http://www.virtualnerd.com)
  - This resource has a lot of quick videos that review skills taught in class
  - The easiest way to find the video is to Google the topic and “virtual nerd”
    - i.e. “virtual nerd multiplying fractions”
- Khan Academy – [www.khanacademy.org](http://www.khanacademy.org) or use the app on the iPad
  - This resource has videos and questions to review skills taught in class
  - Videos on this resource are a bit longer, but still holds good information
- Purplemath – [www.purplemath.com](http://www.purplemath.com)
  - Use this website as a search engine for math questions
  - It will give you a written explanation with an example of how to solve a problem
- Learnzillion – [www.learnzillion.com](http://www.learnzillion.com)
  - You can use this website to search for videos, lessons and examples on basic skills
- Glencoe Math – [www.glencoe.com](http://www.glencoe.com)
  - Choose a State and then select Mathematics
  - This website will give you the older edition of the text books we use in class
  - This must be accessed on a computer, not an iPad
- Regents Prep - <http://regentsprep.org>
  - Good written explanations, especially for the higher level math
- Your Child’s Notes
  - In class, your children take detailed notes to help them with the homework for that night.
- Textbooks - accessed through the ConnectEd App or <https://connected.mcgraw-hill.com/>
  - This will have many good examples to browse through that is directly related to the night’s homework
  - It also has a personal tutor option on some questions where there is a house symbol over the number.
